

## Avelar Energy's first wind park connected to the grid

The first two turbines of Avelar Energy's wind park based in Montecatini Val di Cecina, Tuscany (Central Italy) have been connected to the grid. The 9 MW wind park consisting of six 1.5 MW turbines from Leitwind (Model 771EC IIIa) will be fully connected next month.

Igor Akhmerov, CEO of Avelar Energy Group, comments: "This is our first completed wind project. It represents an important step for Avelar in executing our clean energy strategy."

In Italy, Avelar has a portfolio of 300MW of wind projects in different authorisation stages.

### About AVELAR Energy Group:

- ⌘ AVELAR Energy Group is a Zurich-based energy company, established in 2006. It is controlled by RENOVA Group, a leading private business group and strategic investor in the oil, metals & mining, electricity, housing & utilities, media, machine engineering, construction, chemicals and financial sectors..
- ⌘ Avelar Energy Group is engaged in numerous energy sector activities, including:
  - Trading of power and gas in the Italian market
  - Development of solar and wind parks
  - Construction of a 400 MW gas-fired power plant in cooperation with ATEL AG
  - Development of a gas storage facility with working gas capacity of 1,4 bcm
